**The 19th EMBICON 2017**

**ANNUAL CONFERENCE OF INDIAN ACADEMY OF PEDIATRICS, MUMBAI**

9th - 10th December 2017

**VENUE:**

The Grand Hyatt, Kalina, Santa Cruz East, Mumbai

**“THE PEDIATRICIAN AND THE SUPERSPECIALITIES”**

A Pediatrician is the cornerstone of child health care, the first port of call for a parent in distress and the final word for the management decisions for the family.

In a 21st century scenario dominated by path breaking research, pediatric medicine has undergone a paradigm shift. It is impossible for the busy Pediatrician to keep abreast of each and every update, yet there is increasing pressure to offer the best standard of care.

The Superspecialist manages many medical conditions, even slightly out of the ordinary, but the Pediatrician has to identify, follow up and manage the child. Though the details and crucial decisions may be worked out by the Superspecialist, the treatment delivery needs to be continued by the Pediatrician. Some knowledge is core—“both need to know;” some is “exclusive”—each needs to know his role. Both are equally accountable. This is the new reality!

There is a need to train pediatricians in their day to day role in managing the child in collaboration with the Superspecialist. There needs to be a carefully drawn protocol that specifies the diagnostic and management responsibilities of the paediatrician.

EMBICON 2017 has taken up this mandate to elaborate the role of and train paediatricians in managing patients in collaboration with the Superspecialist. The training will be drawn up in sections for different subspecialities.

“In a first of its kind,” IAP Mumbai has formulated this academic training with the best faculty for each section. We invite all of you to embark on this journey.

---

**Organising Chairpersons:**

Dr. Samir Dalwai  
Dr. Uday Pai  
Dr. Bela Verma

**Organising Secretaries:**

Dr. Bakul Parekh  
Dr. Sushant Mane  
Dr. Amin Kaba
The Pediatricians and Superspecialities- How do we collaborate:

**Oration** - Clinical Genetics for the Practicing Pediatricians.
Systemic Onset JIA.
'Cure if possible – Care Always' – Neurology.
